IMADRID

The visit of Riyadh air metropolitano

First, we took the bus in the morning to go to the Riyadh Air Metropolitano stadium. We had a break in a park before going to the stadium. After this, we arrived at the stadium and we began the visit. Firstly we walked from the entrance of the stadium by the parking of the players to the box of the president and where all the celebrities go to see a football match of Atletico de Madrid. From this sits, we had a complete view of the stadium, it's very huge and impressive. Secondly we went to a room where there was virtual reality glasses and with these glasses we thought that we were a player in the pitch. Next to this room, there was the room of the press conference. Thirdly, we walked to the real changing room of the players of Atletico de Madrid. There was the real shirts of the players but we couldn't touch them. After, we went to the pitch by the player's entrance, in the middle of the pitch. It was really impressive. We couldn't walk on the pitch but we were on the space for the coach and the substitute, so, there was the sits for them. That view made us see how it's incredible and amazing to play in this stadium when it's full or almost full. Then, we went to the museum of Atletico de Madrid. We made some games in machines where we could compare our score to the best score in a chosen game of a player of Atletico de Madrid. Finally, we saw all the trophies of Atletico de Madrid and we went to the shop. It was a very good visit, may be the best of the trip!!
